Summary

I am a senior in Purdue University's Krannert School of Management studying Management Information Systems and Statistics. My areas of interest include Business Analysis, Predictive Analytics, and Project Management. I have additional experience in foundational electrical engineering and mathematics as well as working knowledge of front-end web development.

My soft skills include leadership, team organization, and communication. I've honed my public speaking skills through years of forensic debate and am very comfortable leading a group and guiding the vision of projects and organizations.
